TUBE a family of cylindrical shaped wall light, ceiling light and area light. The body components are made from extruded aluminium and LM6 aluminium which make them highly corrosion resistant to any extreme environment. **TUBE** is protected from the ingress of dust and water and are used in both outdoor and indoor environments. Fitted with COB LED in three color temperature from 2700K, 3000K or 4000K with high CRI. **TUBE** can solve many lighting tasks in modern architectural surrounds and are generally used in illuminating columns and facades. The pole lights give a great level of downward light with symmetric / asymmetric / side throw light distributions.

TERMINAL 21, NAKHON RATCHASIMA – THAILAND

Specification

- Designed, Manufactured and tested according to IEC 60598.
- LM6 Die Cast Aluminium and Extruded Aluminium body.
- Stainless steel screws.
- Nano Ceramic surface conversion.
- Double layer coating.
- Safety glass cover.
- Post-cured silicone gasket.
- High quality LED module and driver.
- Weather proof TPE grommet.
- Installation must be carried out according to the enclosed product manual.

Available Color

Black	[replace the last 2 digits of ordering code with 01]
Graphite	[replace the last 2 digits of ordering code with 02]
